Summary

Information Technology graduate and aspiring Frontend Developer with practical experience in building responsive web applications using HTML, CSS, and JavaScript. Eager to contribute to real-world projects and further develop technical and collaborative skills in a professional environment.

Technical Skills

Languages: C++, HTML, CSS, JavaScript

Developer Tools: Visual Studio, VS Code, Git, GitHub.

Technologies/Frameworks: Bootstrap, Responsive Design, Figma.

Experience

Global Travel Association

Dec 2024 – May 2025

sales agent (UK account)

Nasr City, Cairo

- Global Travel Association (GTA) is a leading provider of worldwide hotel accommodation to the business community.
- Handled customer inquiries and bookings for UK-based clients, enhancing communication skills.
- Maintained high-quality service standards, meeting monthly sales targets.

Exception Real Estate Company

Aug 2022 – Jul 2024

Senior Property Consultant

Dokki, Giza

- Worked as a Senior Property Consultant with 2 years of experience in property sales across key areas including October City, El Sheikh Zayed, New Cairo, and the North Coast.
- Proven success in selling residential and commercial properties, with expertise in negotiation, marketing strategies, and legal documentation.
- Consistently exceeded monthly sales targets through strategic lead conversion and negotiation.
- Developed CRM skills and data-driven decision-making through client portfolio analysis.

Projects

Global Guide Website | HTML, CSS, JavaScript, VS code

June 2025

- Developed a responsive and user-friendly travel website that helps users explore global destinations, attractions, and cultures.
- Designed and implemented the frontend using HTML, CSS, JavaScript, and Bootstrap.
- Focused on clean UI/UX to ensure smooth navigation and a pleasant user experience across all devices.
- Collaborated with a team to manage features like country filters, city listings, and informative content.
- Applied best practices in web performance, accessibility, and cross-browser compatibility.
- Hosted the site on Wuaze platform, ensuring the website is live and accessible online: globalguide.wuaze.com/
- Gained hands-on experience in real-world web development, problem-solving, and project delivery under deadlines.

ATM App | C++, OOP, Visual Studio

March 2025

- Built a console-based ATM application using C++, simulating real-life banking operations such as balance inquiry, withdrawal, deposit, and PIN authentication.
- Applied object-oriented programming (OOP) concepts like classes, functions, and encapsulation to structure the code efficiently.
- Focused on user input validation, clear navigation, and error handling to create a smooth user experience.
- Demonstrated logical thinking by implementing menu-driven options, transaction limits, and looping structures.
- Improved problem-solving skills through debugging and testing various user scenarios.

Education

B.Sc. in Information Technology

El Shorouk University

Expected graduation: June 2025

El Shorouk City, New Cairo

Leadership / Extracurricular

Resala

July 2018 – May 2019

Volunteer

Resala Charity Organization

- Actively participated in community support initiatives such as educational programs, social services, and charity campaigns.
- Developed strong teamwork, communication, and organizational skills through collaboration with diverse volunteers and project leaders.
- Helped organize and contribute to awareness campaigns, clothing drives, food distribution, and fundraising events.
- Took initiative in supporting disadvantaged groups, showing empathy, social responsibility, and a strong sense of commitment.
- Gained experience in problem-solving under pressure and handling real-life challenges in a structured, fast-paced environment.
